Call for 2024 Bursary Applications

The Sibona Ilanga Trust is a community trust that owns shares in the De Aar Solar Power plant for the benefit of communities within a 50 kilometre radius of the plant. It believes that everyone in its communities should have an opportunity to reach their dreams. One way that the Trust expresses this, is by empowering individuals to advance.

The Sibona Ilanga Trust is offering individuals out of school an opportunity to study further at South African tertiary education or training institutions including public or private TVET colleges, universities of technology or academic universities.

The Trust has invested R6.3 million which equates to 63 bursaries. This allowed 34 students from its communities to pursue their dreams. It has committed a further R2.5 million in bursaries for 2024. The Trust's bursaries are managed by StudyTrust.

Individuals intending to or currently studying towards a NQF level 6 in technical, skills training (plumbing, bricklaying etc.) and training programmes, or for national diploma and degree programmes are invited to apply for a bursary. Those who completed their NSC or NTC previously but are not currently studying can also apply.
